What is a hippie?

1967 was dubbed the **Summer of Love**, defined by the high visibility of hippies, an eclectic group of mostly young people who rejected consumerist values and were into music, art, poetry, spirituality, meditation, and free-love. Common hippie themes included peace and love, Woodstock, tie-dye, flower-power, mother earth, long hair, bell-bottoms, and saying things like "groovy, man."

Whether you lived it then or are living it now, let's spread some "good vibes only" by "giving peace a chance," hugging a tree, putting on some Jimi Hendrix and baking brownies because, as you know, when the moon is in the Seventh House, and Jupiter aligns with Mars, then peace will guide the planets, and love will steer the stars...This is the dawning of the age of Aquarius... Sorry man, what was I saying?
